Class will be conducted synchronously on Zoom every MWThF from 2–2:50 pm, where all course material will be published on Canvas or shared via University of Utah Google Drive accounts. During these set meeting times, students will be required to enable their computer webcams in order to video chat with each other, the instructor and the TAs, and will collaborate in small groups to complete one worksheet each day. All Office Hours will likewise be hosted on Zoom, where the possibility of small, in-person meetings when and if needed may be discussed on an individual basis. The class will be using Tro’s “Chemistry: Structure and Properties (2nd ed.)” textbook and related Mastering Chemistry homework program, both of which will be available through the University’s Inclusive Access program. The course fee covers all required textbooks and course materials at a reduced cost. Students may request to opt out here: <https://portal.verba.io/utah/login>

Listening to and Elevating Multicultural Communities: The Case for Equity during COVID-19: Recent widespread reports and data reveals that the COVID-19 pandemic disproportionately impacts racially and ethnically diverse communities. This virtual workshop is designed for students seeking to understand how communities of color in Utah are affected by and are responding to the pandemic. Using the Multicultural Needs in Utah During COVID-19 report released in April 2020 as a baseline, students will have the opportunity to compile case studies, conduct interviews with front-line service organizations, inventory existing resources, and identify how service providers (state agencies, federal agencies, non-profits, etc.) can better assist communities during this time. Students will also have the opportunity to engage in a guest lecture series composed of local practitioners and state leaders that center equity and justice in their profession.
