**FINDING CONNECTION**

Even during this time of social distancing, Lifelong Learning remains a welcoming community of dynamic thinkers and fun-seekers. Sure, a good portion of our classes are now online and those that meet together adhere to safety procedures, but you’ll still find the kind of real connection with instructors and fellow students that we all crave right now. And, with over 100 classes available this fall, we all understand the need to take a break,skill, turn a hobby into an obsession, that will teach you an exciting new skill, turn a hobby into an obsession, help you support one of our local partners, and maybe even transform your life.
