

PROFESSIONAL ASSESSMENT CENTER

Individual Assessment - Developing Self-Awareness, Accelerating Personal Impact

The Professional Assessment Center offered through Professional Education is designed to provide a resource to organizations wanting to foster professional development and build self-awareness for their employees. Assessments can be used to help achieve a variety of goals with all levels of employees from tenured employees to those new to the organization to those who are deemed as rising stars (high potentials) within an organization. The Professional Assessment Center can support and enhance the development of employees at all levels within an organization.

The benefits of incorporating assessments into professional development planning are numerous and our Assessment Center is available to help organizations select the right assessment and then provide a certified consultant to interpret and communicate results in a way that will benefit both the employee and the organization.

Organizations can customize their assessment package to gain maximum knowledge regarding team or individual style and approach to working with others. Assessment packages can also be added to an existing custom training program to help determine the effectiveness of a training program or identify areas needing more attention.

Individuals who are self-aware are able to accelerate individual performance, show up more productively in team environments, develop effective and authentic relationships and communicate with greater success in diverse and changing environments.

**Available

Organizations may choose to select individual assessments with coaching if a bundled approach does not meet their needs.

Customized Options – customized options are available using any combination of offered assessments and coaching services.

Costs

To be determined once strategy/direction is agreed upon.

Team Assessment – Accelerating Team Engagement, Enhancing Team Performance

The Team Assessment Center offered through Professional Education is designed to provide a resource to organizations wanting to enhance team engagement, enhance team performance as well as foster professional development and team awareness to approve team performance. Assessments can be used to help achieve team effectiveness – from new teams to tenured teams. The Team Assessment Center can support and enhance the development of teams at all levels within an organization.

The Team Assessment Center is available to help organizations select the right assessment and then provide a certified consultant to interpret and communicate results in a way that will benefit the team members, the overall team and the organization.

Organizations can customize their team assessment options to gain maximum knowledge regarding team styles as well as individual team member approaches to working with others and as a team. Team assessments can also be added to an existing custom training program to help determine team and individual team member effectiveness.

Self-aware team members and teams are able to accelerate team performance, engage more productively, support change efficiently, engage in conflict collaboratively, develop authentic relationships and communicate with greater success in a team environment.
